LANGUAGES

- Urdu English

SKILLS

HTML5 • CSS3 • JavaScript • Tailwind Css • React.js • Redux • RTK • Express.js • MongoDB

INTERESTS

Traveling, Explore new things

PROJECTS

Stock Genius - Inventory management system [🔗](#)

I developed an inventory management system using the MERN stack with Redux for state management. The system allows users to add, edit, and search products, track stock, costs, and sales, with a history section for past sales and profits. It features a dark mode and admin panel for user management.

Mi Store, Mi Store Clone [🔗](#)

mi store clone. Products directly linked with mi official store.
